EU Strategija Održivosti u Području Kemikalija: stup Europskog Zelenog Plana

» Includes Chemicals Strategy for Sustainability

Chemicals are produced/used in a way that **maximises their benefits to society** while **avoiding harm to planet & people**

Production and use of **safe and sustainable chemicals** becomes a benchmark worldwide

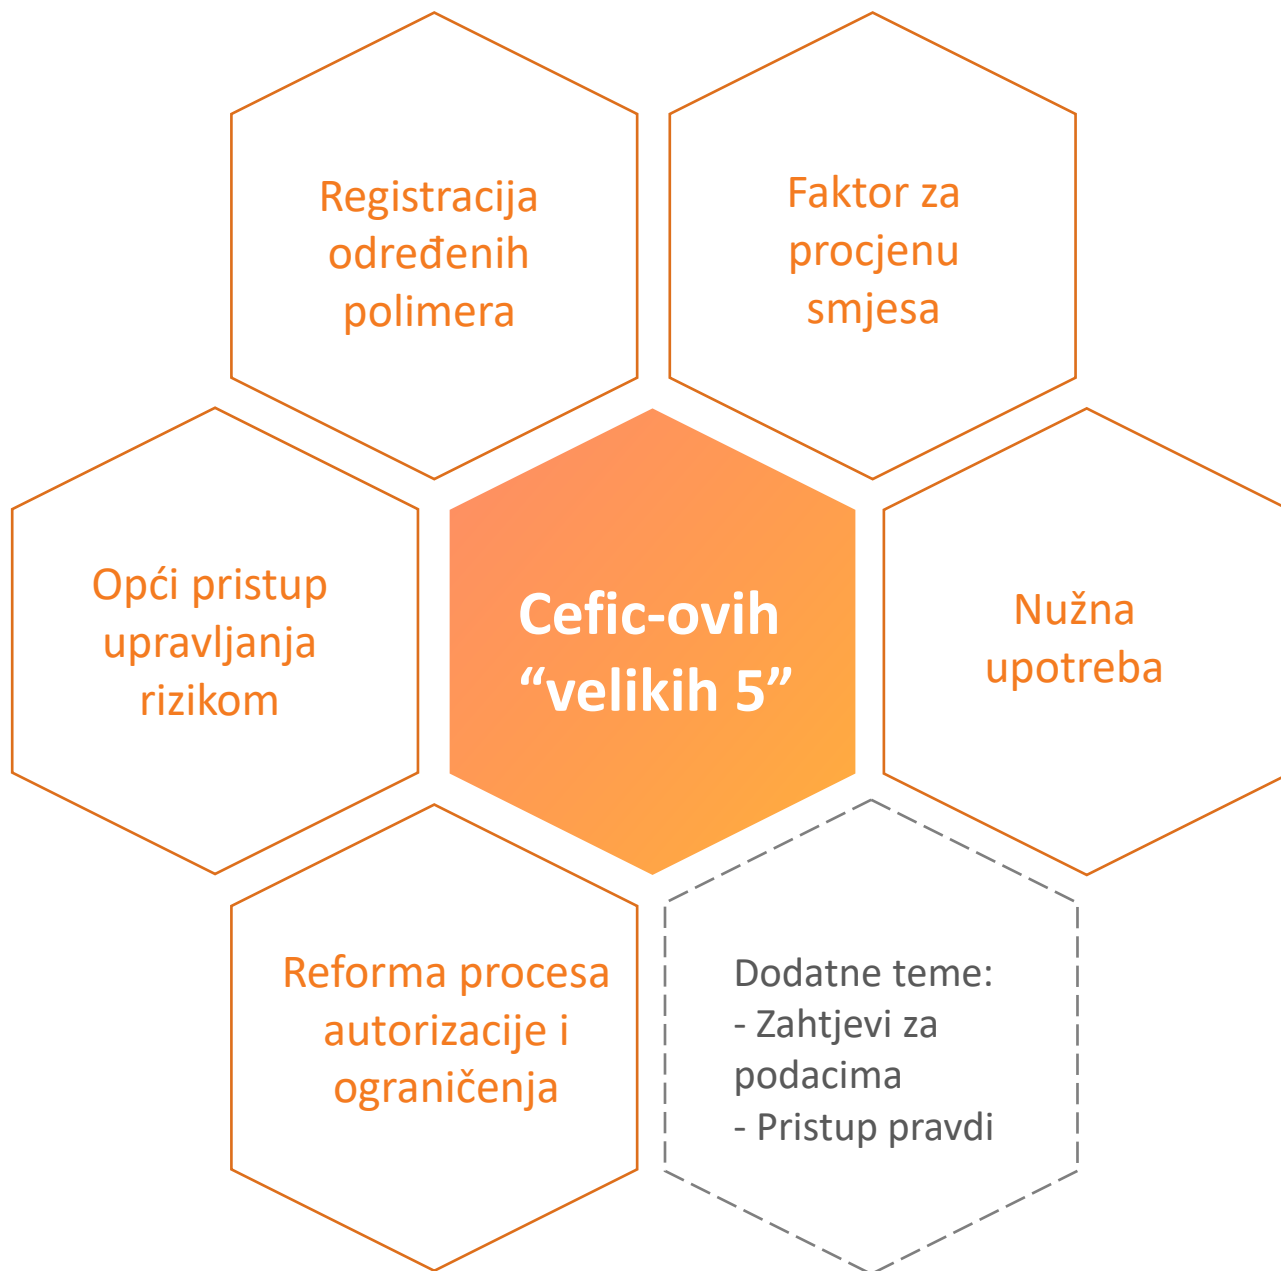

REACH

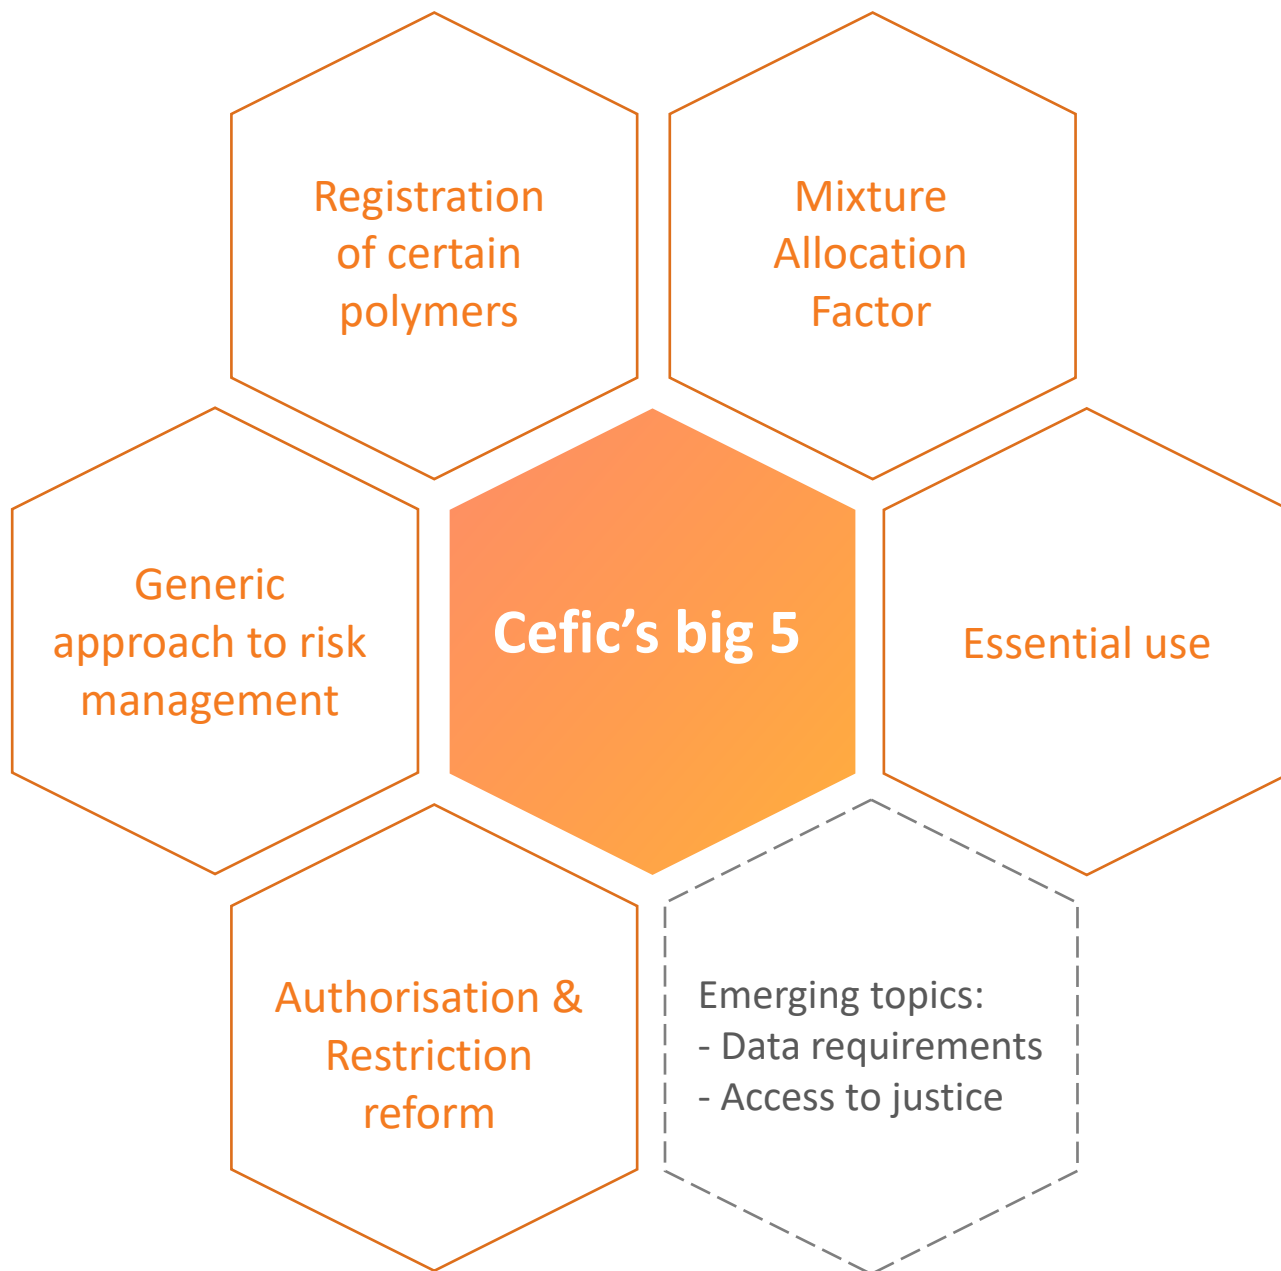

Nova pravila doći će brže i sa širim opsegom

- Kako osigurati da novi sustav i uredba o kemikalijama:
 - rješava probleme s kojima se danas suočavamo
 - fokusira na ono što je najvažnije
 - pruža predvidljivost industriji za daljnja ulaganja

Kada se očekuje predstavljanje revizije REACH uredbe?

Kako se kompanije mogu pripremiti?

- Promjene će utjecati na sve kompanije koje se bave kemikalijama
- Kompanije već danas trebaju identificirati “slabe točke” svojih proizvoda (ako je kemikalija u određenom razredu opasnosti i koju koriste potrošači, sigurno je vlastima u prvom fokusu)
- Počnite razmišljati o alternativama, surađujte sa svojim klijentima unutar lanca opskrbe (inovacija zahtijeva vremena i ovisi o primjeni)
- Povežite se sa asocijacijama kako na nacionalnom tako i na Europskom nivou

Kemija pruža inovativna rješenja, funkcionalnost, trajnost

- Nova pravila moža zvuče apstraktno...ali na kraju imaju utjecaj na daljne korisnike, tako i proizvođače artikala

- Prirodni ili sintetički materijali
- Termoplastični poliuretan
- Karbonska vlakna
- Plastika
- Metali

- Sintetička koža (poliuretan, polivinil klorid)
- Guma

- Poliester
- Poliuretan
- Elastan

- Najlon
- Akril
- Elastan

About Cefic

Cefic, the European Chemical Industry Council, founded in 1972, is the voice of large, medium and small chemical companies across Europe, which provide 1.1 million jobs and account for 15% of world chemicals production. Cefic members form one of the most active networks of the business community, complemented by partnerships with industry associations representing various sectors in the value chain. A full list of our members is available on the Cefic website. Cefic is an active member of the International Council of Chemical Associations (ICCA), which represents chemical manufacturers and producers all over the world and seeks to strengthen existing cooperation with global organisations such as UNEP and the OECD to improve chemicals management worldwide
