# What does it mean in practice?

## For consumers

Knowing and comparing sustainable products

## For the industry

Transferring info on chemicals, resource efficiency, recycled content etc. down the supply chain to the final product and its DPP

If the product doesn't meet ecodesign requirements, it cannot be placed on the EU market (including imports)

### About Cefic

Cefic, the European Chemical Industry Council, founded in 1972, is the voice of large, medium and small chemical companies across Europe, which provide 1.1 million jobs and account for 15% of world chemicals production. Cefic members form one of the most active networks of the business community, complemented by partnerships with industry associations representing various sectors in the value chain. A full list of our members is available on the Cefic website. Cefic is an active member of the International Council of Chemical Associations (ICCA), which represents chemical manufacturers and producers all over the world and seeks to strengthen existing cooperation with global organisations such as UNEP and the OECD to improve chemicals management worldwide
